I can use different ways to subtract numbers!

Turn these boring old horizontal take-away sums, into cool and awesome chimney sums in your jotter or on paper! Just like this:

$433 - 212$

becomes

$$\begin{array}{r} 433 \\ - 212 \\ \hline 221 \end{array}$$

1) $82 - 61$

2) $92 - 41$

3) $46 - 23$

4) $77 - 24$

5) $99 - 98$

6) $221 - 110$

7) $309 - 206$

8) $653 - 242$

9) $588 - 363$

10) $998 - 791$
