

I can use my sounds to make rhyming words

Rhyming words are words that sound similar to each other when you say or hear them. They have the same ending, and they sound almost the same when we say them out loud.

Make some rhyming words below by reading the words, and then changing the first sound to make new words. You can also draw pictures to show your words! Here is an example:

pen

ten

10

hen

red

__ed

__ed

bin

__in

__in

mop

__op

__op
