

We are quite old and our backs and legs can get quite sore sometimes. We don't need a lot of space, just something nice, warm and comfortable.

We have a big family so we need lots of space – inside *and* outside our house! We have two cars and our children are very noisy. Poor neighbours!

I work in the city so I would like somewhere close to that. I don't drive and I love exercising – especially walking up and down lots of stairs!

Draw the perfect house for each one!
