£0.75

- 1 Miss Kurt needs to buy enough Fruit Salads for everyone in 5D (29 children). How much will this cost?
2. Sarah wants to buy 3 milkshakes but only has £10. Is this enough money?
3. Alan buys 2 cans of cola and one milkshake. How much does this cost him in total?
4. Jane buys 2 burgers, 1 pizza and 1 orange juice. How much does this cost her in total?
5. If ten friends buy cheeseburgers, how much will this cost in total?

Challenge! What is the largest number of cups of tea you can buy with £5? How much change will there be?

How many friends can have a hotdog and chips each with a £20 note? Will there be any change? (show how you worked this out).
