

Making Compound words

Start with **eye** and add on the other words; how many compound words can you make? For example, **eyeball**. Write them in the boxes. Remember; **not all of the words will work**.

ball	<input type="text"/>	tall	<input type="text"/>	lid
sight	<input type="text"/>	eye	<input type="text"/>	brow
shadow	<input type="text"/>	drops	<input type="text"/>	mash

Can you write a sentence using one or two of your compound words?

man	<input type="text"/>	stall	<input type="text"/>	way
show	<input type="text"/>	fire	<input type="text"/>	works
hot	<input type="text"/>	place	<input type="text"/>	wood

Can you write a sentence using one or two of your compound words?
