

DIGITAL SCHOOL LEARN HERE

Digital Learning For Me!

LEARN HERE

Digital Learning

You know how important it is to learn so that you can be the very best that you can, and sometimes just now that means learning without your teacher in the same room!

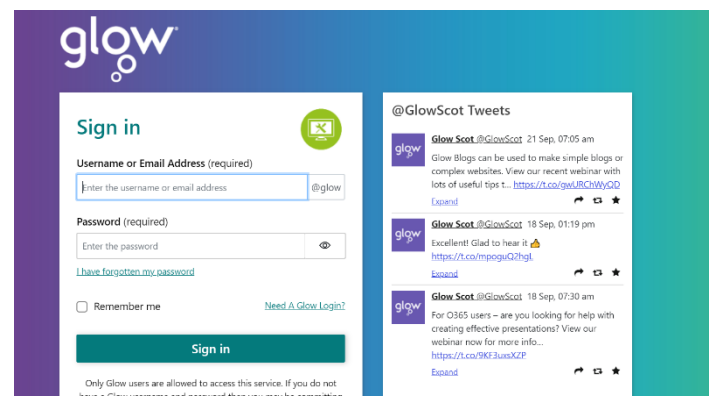

If you're not in school, remember you still need to plan time to learn and to complete the tasks set by your school.

GLOW

You should know your GLOW username and password and how to get onto your class team. There might be other logins you need to know for other learning apps. Your class team is where you can learn with your friends and where you will be in touch with your teacher.

If you don't know how to do this you can ask your teacher, even if you're not in school. Your school will be able to give you any login details you don't have or have forgotten.

Remember do not share usernames or passwords with anyone else. Keep yourself safe online!

If you have to self-isolate or you cannot attend school then you can continue your learning online. Your teacher/school staff will set work for you. You will be able to communicate with them online and get feedback on your learning.

North Lanarkshire has a Digital School to help teachers give you interesting and useful learning experiences.

Not all your learning will need you to be online, your school will give you tasks which do not involve Glow.
