

This is a brief overview of the subjects and tasks being provided to support your child’s learning at home. Learning activities have been categorised **Independent, With Support, Extra** and **Family** to help make it easier for you to know when they will require support. The amount of support your child requires will depend on their age and stage and ability and how well they understand the subject matter. Categories and subjects may overlap. Please **do not** think that this is a list that has to be completed, this is simply to help you select activities that will best suit your child and family life during this unique and challenging time. Future tasks posted on glow will say if they are Independent, With Support, Extra or Family for your guidance.
