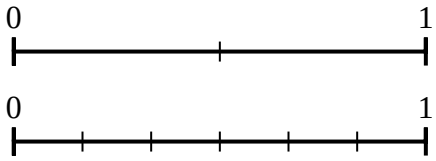
Finding Equivalent Fractions with a NumberLine

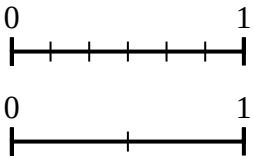
Name:

Use the number lines to answer the questions.

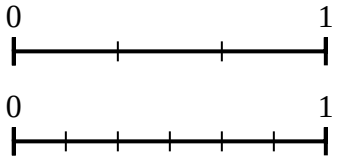
1) Using the number lines shown, what is the equivalent fraction to $^{1}/_{2}$?



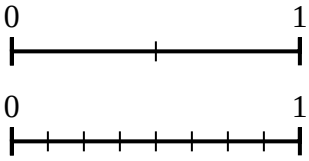
2) Using the number lines shown, what is the equivalent fraction to $^{0}/_{6}$?



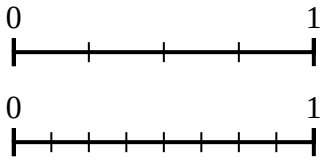
3) Using the number lines shown, what is the equivalent fraction to $^{3}/_{3}$?



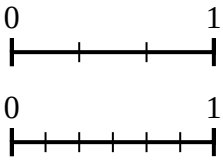
4) Using the number lines shown, what is the equivalent fraction to $^{2}/_{2}$?



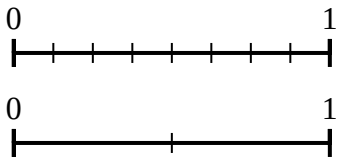
5) Using the number lines shown, what is the equivalent fraction to $^{1}/_{4}$?



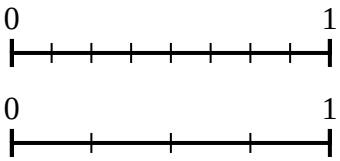
6) Using the number lines shown, what is the equivalent fraction to $^{1}/_{3}$?



7) Using the number lines shown, what is the equivalent fraction to $^{4}/_{8}$?



8) Using the number lines shown, what is the equivalent fraction to $^{6}/_{8}$?



Answers

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
8. _____

1-8	88	75	63	50	38	25	13	0
