

Elkonin box

Use the Elkonin box like we do in class to put one sound in each box for your phoneme words.

For example, car and chart would be sorted like so

c	a	r		
ch	a	r	t	

Use your phoneme words and place them into the Elkonin box.

Tip if using an iPad you can screenshot the next page by pressing the circle home button at the bottom of the screen and the power button at the top of the iPad at the same time. Then look in your pictures and open the page. Press 'Edit' and then the three dots in the top right hand corner. Use the 'markup' option to allow you to write directly on to the picture. To save press 'Done' in the top right hand corner twice.

Some of you will remember practicing this in class

Elkonin boxes
