<u>Spelling Strategy 6- Mnemonics</u> Mnemonics help us remember the order of something. They can be a song, rhyme, image or sentence. We all know the mnemonic BECAUSE- Big Elephants Can Actually Understand Small Elephants. 1) Say the mnemonic out loud at three times to memorise it. 2) Now write the beginning letter of each word as you say the mnemonic out loud. 3) Do this over and over until you have memorised the mnemonic and can use it to spell the tricky word. 4) You can write in any way you want. Write with pens, in sand, in flour, big, small or super fancy.
