Properties of 3D Shape- Cubes and Cuboids

LI- I can name the properties of 3D shapes and identify 3D shapes from their nets

Watch the clips- [Clip- Properties of 3D Shape](#) & [Clip- Nets of a cube](#)

1. Which of these nets make a cube?

2. Can you draw any other nets that make a cube?

3. Can you draw a net for a cuboid?

4. Use one of the nets on the blog or make one of your own to make a cube and a cuboid.
