## Looking forward to August

Your child's transition to high school is well underway and I am sure the primary 7 year has passed in the blink of an eye. Throughout this year, we have worked closely with our primary colleagues in planning and evaluating our cluster curriculum to ensure that there is continuity and progression in your child's learning when he/she transfers to Chryston High School in August. Your child has also had the opportunity to visit us on a few occasions starting this time last year time with the P6 visit. Since then, our P7s have worked with our senior sports leaders in PE and our German language assistant. They were also a much appreciated audience at our school Pantomime. They are now fairly familiar with the school building and some of our staff and pupils. During the month of May, their contact with us will increase in preparation for the two day visit in June. Our aim for your child is that he/she feels confident that they will be safe and well-looked after in Chryston High School, and also that they understand that moving to secondary school is the next step in the learning journey that started in nursery. We want all of our new S1 pupils to continue to enjoy learning, flourish and achieve the high standards that have been set by our primary colleagues.

Our aim is to ensure  
that all our young  
people enjoy  
learning, flourish and  
achieve.

# Transition Events May

Teachers from Chryston High School will visit our primary schools to deliver lessons in PSHE (Personal, Social and Health Education), German and English. Mrs. Mullen, Depute Head Teacher, and Mr. Cooper, Principal Teacher for Support for Learning, will speak to the primary 7 teachers to find out about your child's learning, interests and achievements. Leontia McLaughlin, our Home School Partnership Officer will visit our primary schools twice. Your child's primary school will pass on the dates relevant to each school.

# Technical Project June

Each year, we have a project exploring an aspect of the curriculum. This year's project will be carried out by our Technical Faculty. Technical teachers will start a design project during a visit to the primary schools and the pupils will finish the project during a visit to the Technical department in June.

# Two Day Visit

In a previous newsletter, we wrote about the aims of the two day visit. Here are the arrangements for the visit:

- Date:** 7<sup>th</sup> and 8<sup>th</sup> June  
**Transport:** Bus transfer provided by CHS. Pick up and drop off at primary school  
**Lunch:** Provided by NLC in the canteen  
**School Day:** Your child will follow a timetable and will go to 5 classes each day. S3 pupils will escort them around the school.

# June Newsletter

In the June newsletter you will be given information about the following:

- S1 curriculum
- Pupil Support
- Clubs
- Reporting schedule and parents' evenings
