

How to keep in touch with your maths teacher and classmates...

Classes have been set up on either Microsoft Teams or Edmodo so that you can discuss your work with your teacher and classmates.

Microsoft Teams can be accessed through Glow by clicking on the tile in the Chryston High School area of Glow.

A free app is also available.

Students can go to the Edmodo website: www.edmodo.com and enter the code for their class. Their teacher will then add them to the class.

A free app is also available.

Follow [@ChrystonMaths](https://twitter.com/ChrystonMaths) on Twitter for information during the school closures.

If you have any problems accessing these, then please DM us, and someone will be in touch.

Scroll below to find out how to access each teacher's classes.
