Introduction

In Clarkston Primary School, we strive to encourage our staff, learners and parents to take full advantage of the opportunities offered by digital technology in order to raise attainment, ambition and opportunities for all. As with Literacy, Numeracy and Health and Wellbeing, Digital Literacy is placed at the heart of learning across the curriculum in our school. We recognise and understand the technological needs of our pupils and how, through its use, we can enrich the teaching and creative learning opportunities that we offer them.

All teaching staff and members of the Leadership Team, where appropriate, will plan practical and creative learning opportunities for children to apply, reinforce and extend their digital skills across the curriculum to ensure they can successfully utilise a range of technological skills in a variety of contexts.

By engaging children in appropriate and purposeful use of a range of digital technologies and the internet, we aim to develop our learners' skills for learning, skills for life and skills for work. We will embrace new technological developments to equip our pupils with employability skills that are often required in our ever-increasing digitised world.

At Clarkston Primary School, we endeavour to develop responsible, rights respecting digital citizens who can communicate and participate safely and respectfully in the ever growing online global community.

Overview

This policy provides clear guidance on acceptable use of technology and the school network. It sets out our vision for the effective use and implementation of digital technologies to enhance, enrich, extend and support teaching and learning at all stages whilst also developing skilled, confident and responsible digital citizens.

This policy applies to all members of Clarkston Primary School community (including staff, pupils, volunteers, parents / carers, visitors and external agency staff) who have access to and are users of school ICT systems, both in and out of the school.

Our Aims in Digital Learning

At Clarkston Primary School we aim to:

- Develop a whole school approach to the effective use of digital technology incorporating the seven principles of design – challenge and enjoyment, breadth, progression, depth, personalisation and choice, coherence and relevance.
- Ensure that digital technology is a central consideration in all areas of curriculum and assessment delivery.
- Provide regular professional learning opportunities to further develop skills and confidence of staff in the appropriate and effective use of digital technology to support learning and teaching.
- Enable children to become confident, independent and responsible users of digital technology, who are empowered to lead change.
- Use a wide range of digital technology to support learning, teaching and communication for pupils, staff and the wider school community.
- Support/challenge children with additional support needs through the use of appropriate apps, websites, hardware and software.
- Maximise the use of digital technology in developing and maintaining links with other schools, parents, the local community and other agencies.
- Use digital technology to increase pupil, parent and staff feedback opportunities.

Curriculum Development and Organisation

Access to Digital Technology

All classes have immediate access to digital technology to support, challenge and enhance learning across the curriculum whilst developing a range of transferable technological skills:

Each week, children will have opportunities to develop their technological skills and embed new skills across the curriculum using a variety of technology. Children will be explicitly taught skills through:

- Weekly lesson in the ICT suite using laptops (P2-7).
- Regular access to iPad trolley (shared across a stage).

Enhancing Curriculum and Assessment Delivery

In Clarkston Primary, the use of digital technology should be a central consideration in the planning and delivery of teaching and learning. Learners should have countless opportunities to develop their digital skills across the curriculum. From P2-P7 Glow should be regularly accessed for teaching, independent/collaborative learning and assessment purposes. It should also be used to save and share all documents, as required.

Equity and Inclusion

Digital strategies that encourage all to be included in the learning experience at Clarkston Primary should be sought and implemented e.g. Sumdog lunchtime/after school clubs for children who can't access it at home.

Home Learning

Relevant and engaging digital solutions to home learning that offer 'anytime/anywhere learning' should be promoted to our learners. Every child should have usernames and passwords for Glow, Sumdog and those who need support should have details for Studyladder and Nessie. All homework is issued on teams for pupils in P2-P7 and on the P1 Twitter page for our Primary 1 pupils.

Online Safety & Digital Citizenship

Roles and Responsibilities

The following section outlines the online safety roles and responsibilities of individuals and groups within our School:

Head Teacher

- The Head Teacher has a duty of care for ensuring the safety (including online safety) of members of the school community, though the day to day responsibility for online safety and education around this will be delegated to Barry Polatajko as part of ICT co-ordinator remit.
- The Head Teacher is responsible for ensuring that the ICT co-ordinator receives suitable training to enable them to carry out their online safety roles and to train other colleagues, as relevant.
- The Senior Leadership Team will receive regular monitoring reports from the ICT coordinator.

ICT Co-ordinator:

- takes day to day responsibility for online safety issues and has a leading role in establishing and reviewing the school online safety policies / documents
- ensures that all staff are aware of the procedures that need to be followed in the event of an online safety incident taking place.
- provides training and advice for staff
- liaises with the Local Authority
- liaises with school technical staff
- liaises with Pathfinder schools
- meets regularly with the Head Teacher to discuss current next steps in SIP
- the production / review / monitoring of the school Online Safety Policy / documents.

Teaching Staff

Are responsible for ensuring that:

- they report any suspected misuse or problem to the Head Teacher or ICT co-ordinator
- all digital communications with pupils, parents / carers should be on a professional level and only carried out using official school systems

- Microsoft Teams is used for Homework (P2-P7)
- P1 Twitter page to be updated with Homework and evidence of play-based learning.
- pupils have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they monitor the use of digital technologies, mobile devices, cameras etc in lessons and other school activities (where allowed) and implement current policies with regard to these devices
- in lessons where internet use is pre-planned pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches

Pupils:

Whilst the use of digital technology is regularly encouraged at Clarkston Primary School , this is balanced by educating pupils to take a responsible approach. The education of pupils in online safety is therefore an essential part of the school's online safety provision. Children and young people need the help and support of the school to recognise and avoid online safety risks and build their resilience.

Online safety should be a focus in all areas of the curriculum and staff should reinforce online safety messages across the curriculum. The online safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways:

- A planned online safety curriculum, should be provided as part of Digital Literacy lessons and should be regularly revisited (see planners uploads),
- Key online safety messages should be reinforced during weekly assemblies.
- Pupils should be taught in all lessons to be critically aware of the materials / content they access on-line and be guided to validate the accuracy of information.
- Pupils should be taught to acknowledge the source of information used and to respect copyright when using material accessed on the internet.
- in lessons where internet use is pre-planned, it is best practice that pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches.
- Where pupils are allowed to freely search the internet, staff should be vigilant in monitoring the content of the websites the young people visit.

Pupils of Clarkston Primary School:

- are responsible for using the school digital technology systems in accordance with the Pupil Acceptable Use Agreement
- should have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- need to understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so.
- will be expected to know and understand policies on the use of mobile devices and digital cameras. They should also know and understand policies on the taking / use of images and on cyber-bullying.

-

Parents / Carers

Parents / Carers play a crucial role in ensuring that their children understand the need to use the internet / digital devices in an appropriate way. The school will therefore seek to provide information and awareness to parents and carers through:

- Curriculum activities
- newsletters, Twitter, blog
- Parents / Carers ICT sessions

Parents and carers will be encouraged to support Clarkston Primary School in promoting good online safety practice and to follow guidelines on the appropriate use of:

- digital and video images taken at school events
- the school blog and Twitter page

Social Media – X

Clarkton's X account (@Clarkstonps) is a private account managed by staff and is used for:

- communicating information to our families and wider school community
- regular reporting on children's learning
- sharing and celebrating success and achievements both in and out of school
- modelling responsible and respectful use of social media with children

This is the school's main Twitter account and will therefore be updated with important information such as school closures, holidays, lunch menus etc. It is recommended that all staff and parents follow the school account to be kept up to date.

Clarkston P1 X account (@p1clarkston) is also a private account managed by P1 staff and the ICT co-ordinator and is used for:

- communicating information to P1 parents about class and wider school community events.
- sharing and celebrating learning through our play-based approach
- sharing homework for P1 pupils

X Code of Conduct for all staff members:

- Members of Senior Management will accept responsibility for monitoring and accepting followers and will block any who appear to have: no link to the school, no relevance to the work of the school, inappropriate usernames not in keeping with NLC policy or the ethos of the school e.g. sexualized, football team affiliated, alcohol or drug related names or posts or comments that could cause offence.
- Only children's first names should be used when referencing children and not at all if the child can be identified in a video or photo attached to the Tweet.
- If children are photographed sharing their work or certificates, staff must ensure that their name is not displayed on the work.
- welcome positive comments only
- follow educationally linked accounts. Parental accounts, unless educationally linked, will not be followed back.

As X users must be at least thirteen years old, pupils will not be allowed to use X accounts independently. However, in school they may have the opportunity to contribute to Tweets as part of planned educational activities.

Code of Conduct for parents and the wider school community when interacting with the school account:

- Direct messages will not be responded to. The school should be contacted using formal means of communication only; email or telephone contact to discuss issues or queries.
- If commenting on a photo or video of a child, do not include the child's name in the post.
- If commenting with a photo or video of your own child, it is recommended that you do not include their name in the Tweet.
- Seek permission from parents before uploading photos or videos of children other than your own.

X Misuse

Any concerns or issues about the misuse of Twitter should be reported to the Head Teacher immediately.

Use of digital and video images

The development of digital imaging technologies has created significant benefits to learning, allowing staff and pupils instant use of images that they have recorded themselves or downloaded from the internet. However, staff, parents/carers and pupils need to be aware of the risks associated with publishing digital images on the internet.

- When using digital images, staff should inform and educate pupils about the risks associated with the taking, use, sharing, publication and distribution of images. In particular they should recognise the risks attached to publishing their own images on the internet e.g. on social networking sites.
- Written permission from parents or carers will be obtained at the beginning of each school session before photographs of pupils are published on the school website, social media or the local press.
- Parents / carers are welcome to take videos and digital images of their children at school events for their own personal use unless otherwise communicated by the Senior Management Team. To respect everyone's privacy and in some cases protection, these images should not be made publicly available on social networking sites, nor should parents / carers comment on any activities involving other pupils in the digital images / videos.
- Staff and volunteers are allowed to take digital images to support educational aims, but must follow school policies concerning the sharing, distribution and publication of those images. Those images or videos should only be taken on school equipment, the personal equipment of staff should not be used for such purposes.
- Pupils must not take, use, share, publish or distribute images of others without their permission.
- Pupils' full names will not be used anywhere on a website or blog, particularly in association with photographs.

Management of Digital Resources

Class iPads and Laptops

- Each stage have been allocated a specific number to iPads.
- Those children requiring technology for additional support needs have been allocated a laptop. It is the teacher's responsibility to ensure this is stored safely and charged each day.
- Faults or damages should be reported as soon as possible to Mr Polatajko or Miss Taylor.
- Ipad's should be returned to the Ipad trolley allocated to the stage every evening to allow them to recharge.
- Teacher's to decide on a small number of apps to have on Ipad's with their stage partner. Please be mindful of storage space.

Teacher Laptops

- Should be logged off throughout the day when not in use by a pupil or class teacher.
- Should be shut down at the end of the school day
- Faults or damages should be reported as soon as possible to Mr Polatajko.
-

Promethean Boards

- Only a dry microfibre cloth should be used to maintain the panel
- Faults or damage should be reported as soon as possible Mr Polatajko.

Coding Equipment

- To be collected and returned to the ICT suite for use within the class.
- P1 have a class set of Beebot's which should remain there for regular use during play based learning.
- Store in boxes provided.
- Report any faults or damages to Mr Polatajko as soon as possible.

ICT Suite

- All laptops, desktop computers, keyboards and mouse must remain in the ICT suite.
- Digital equipment to be turned off at the end of every day,

Digital Leaders

The development of a Digital Leaders' team over the previous sessions had a significant impact on digital learning in Clarkston Primary School. This will continue this session and will be supported by Mr Polatajko and Miss Taylor

The Digital Leaders team:

- are role models for responsible and respectful digital citizenship across the school
- lead learning in classes across the school to model use of innovative technology and to support pupils to accessing websites and coding equipment.
- support staff delivering lessons with new digital technology and resources
- support staff with technical issues
- support staff with maintenance of school owned devices
