

Calculators permitted but all working needs to be shown.

Essential knowledge:

1. Find the perimeter and area of each shape:

2. Find the volume of each solid:

Unit level:

3. Find the Area and perimeter of the shape on the right.

4. An adventure park is installing a climbing wall. The wall has a volume of 56.55m^3 and a height of 8m. What will the radius of the cylinder be?

5. A semi-circular window is made from three identical pieces of glass. Calculate the area of the damaged piece of glass.

Assessment level:

6. Mairi is planning to paint the walls of her room. The room is in the shape of a cuboid with the dimensions shown. How much paint does Mairi need to paint the walls of her room?

Circle - $C = \pi d$

$A = \pi r^2$

Cylinder - $V = \pi r^2 h$

Prism - $V = Ah$
