

# Crocodile Snap

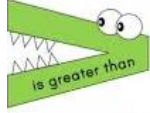

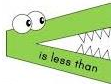

How to play:

Only two people can play this game!

Each person thinks of a 2D (2digit) number or you can use a dice to roll your number (if you have one at home).

Then help each other to write the crocodile in the middle

e.g.

| Greater than  | Equals the same | Less than  |
|---|-----------------|--|
| 34  12 | 15 = 15         | 5  47 |

The person with the greater number wins a point. You can keep a score board like this one using tally marks or you could use coins, beads or cereal as treasure!

| Miss Langridge | Fred |
|----------------|------|
|                |      |

You must write at least 6 of these number sentences in your Jotter!!!

Have fun and be snappy!
