

## Primary 7 Home Learning Tasks Week beginning 8<sup>th</sup> June 2020

### Literacy

This week for literacy we would like you take a wee trip down memory lane and explore some of your memories of primary school. We would like you to write about your **favourite primary school memory** - it may have been a trip or show, winning an award or a sports event, maybe going to Kilbowie or your very first day in Primary 1 when you met all your new friends. We would also like you to have a think about your **most embarrassing memory**. This should be something light-hearted and maybe funny or silly to make people smile. We don't want to make anyone uncomfortable with this so please only share stories about yourself you are happy for others to read! Please try your very best to complete these memory tasks and email them to Mrs Ogilvie at [AQgilvie@cumbernauld-pri.n-lanark.sch.uk](mailto:AQgilvie@cumbernauld-pri.n-lanark.sch.uk) It would also be great if you could tell your classmates who might not be using Teams. We can't wait to see them 😊

### Maths

We are going to look at data handling this week and create our own charts and graphs. You can survey your friends and family about a topic of your choice and display your results. Have a look at the following videos and try and answer the questions that accompany them.

### IDL - People and Places

Use the link to take you to Tigtag: <https://www.tigtagworld.co.uk>

You will need to log in.

User name: cpstigtag@2020

Password: cpsteam2020

Remember, if you are having trouble logging in, it is fine to set up your own free 90 day trial which has been provided to support home learning while schools are closed. Make sure you have an adult with you to do this. Once you are in:

- Go to 'People and Places'

- Click on '**Show topics**'
- Select '**Physical Geography**'
- Again, starting with the video clips, work your way through the links to find out more about each of the 7 topics.
- If you have time, why not:
  - Choose a holiday destination and create a **tourism leaflet** selling the geographical features of the location you have chosen.
  - Find information on the internet to make a **fact file** about the **River Clyde**. Try to include some of the technical vocabulary used in the 'Rivers' video.
  - List at least 8 Scottish mountains. How high are they? What is a Munro? Find out interesting facts about them.

If you can, take a photo of your work and upload it to our team.

**Art/ Design** - Landmark drawing. Watch the following link of Australian artist Ken Done drawing his favourite landmarks. You might want to try one by looking at a photograph of a landmark online, or you could even try it from memory if you are really brave! Be sure to post pictures of your creations on Teams.

**Health and Wellbeing** - If you have any activities from last week's 'Take Care of Your World' that you haven't yet completed, you could finish these off.

We have probably all felt a bit worried, stressed or anxious during the last few months when we have been on lockdown. Have a look at the following link that will allow you to try some techniques to relax and stay calm. These skills are very important ones to have and you will be able to use them at any time in your life (at any age) when you need a bit of calm.
