

# End of Term

Hi Primary 2a, this is our last learning grid of the year and I have tried to include some fun activities which will help you to get ready for summer and think about the fun times you have had in Primary 2 and what you have learned. You have been a wonderful class to teach and I will miss you all very much. You have all worked so hard this session and have made fantastic progress, which you should be extremely proud of. Our last term together has been a little different from what we all expected and I am really pleased at how well you have adapted and coped with the change. Have a lovely summer holiday and I can't wait to see you all in August when you will be 'big' Primary 3's. Love Miss Richmond. xx

Create a picture that makes you think of Summer. Use any materials you like.

Draw and write about your favourite memory from Primary 2. If you can share this on our Teams page. I am sure everyone will enjoy looking at our memories.

List your top 5 favourite books on our Teams page. Your classmates might want to read these over Summer.

Talk to an adult about what you found easy this year and what you found challenging.

You could ask an adult to help you fill in the mountain sheet.

Write 3 interesting facts about yourself. Share these on our Teams page so that your new teacher can learn a wee bit about you before August.

Create a poster with a message to your class. This could be to wish them a happy holiday, to thank them for being a great class or wishing them well in Primary 3. You choose!

You might like to share this on our Teams page.
