

# Dykehead Primary School House Refresh

# Calderhead

- ▶ Calderhead Mine was operated by the Shotts Iron Company.
- ▶ Its location is next to Benhar Road.
- ▶ It had an average workforce of 437 miners.
- ▶ There were two mine shafts which were up to 138m deep.
- ▶ The coal mine closed in 1958 where the site was then used for training.
- ▶ Now, the buildings are no longer there, but three large bings remain.
