Remote Learning Suggested Work for week beginning 25 May 2020

Here is the list of work available within each subject area for this week. Although there is a suggested timeframe for each of the subjects (and therefore the tasks provided) ***please note that this is a guideline only***. We fully understand that everyone's circumstances will be different and may change from day to day. Do what you can manage within your own personal circumstances. ***Please do not stress if you can't manage everything – some people will manage to whizz through all of the tasks, others may take longer and that's ok. We would recommend that in S2 you should aim to spend around 10 hours per week on school work if you can.*** Good Luck!

GHS new S5/6

Remote Learning Suggested Work for week beginning 25 May 2020

Here is the list of work available within each subject area for this week. Although there is a suggested timeframe for each of the subjects (and therefore the tasks provided) ***please note that this is a guideline only***. We fully understand that everyone's circumstances will be different and may change from day to day. Do what you can manage within your own personal circumstances. . ***Please do not stress if you can't manage everything – some people will manage to whizz through all of the tasks, others may take longer and that's ok. We would recommend that in S5/6 you should aim to spend around 12 hours per week on school work if you can.*** Good Luck!
