

P3/4 Home Learning Plan WB: 15th June

Literacy	Maths/Numeracy	Health and Wellbeing	Other Areas
Access your words on Spelling City under the heading w/b 15/6/2020 and play at least one game every day.	Number Processes: Play the “Daily 10” on TopMarks.: P3 – Level 2 / P4 – Level 3 Select multiplication and choose some tables to challenge yourself!	Physical: Due to the school closures this year, we have been unable to take part in Sports Day. This makes me very sad as it’s my favourite event of the year! I have created a list of activities below for you to take part in at home: Sack Race: Use some old pillow cases to compete in a sack race around your garden or a room in your house Plank Challenge: How long can you hold a plank for? Who can hold the longest plank in your house? Toilet Roll Race: Race your family members whilst holding a toilet roll between your legs. Cushion Race: Make a circuit and see how quickly you can run round it whilst balancing a cushion on your head. Egg and Spoon Race: Balance an egg (or other small object) on the end of a spoon and see if you can race without dropping it! Three Legged Race: Use a tie or similar material to tie your leg together with another person in your household. Time how fast it takes you to run around your course. Which pair are the fastest in your family?	Make a ‘Learning at Home’ time capsule. Fill it with pictures, thoughts and feelings about not being at school at the moment. You can look back on these memories to remember the time you spent at home with your loved ones. Continue researching and creating your small project. You could use online articles and videos to help you. Homemade Hearts Movement. Hospitals had asked people to make and donate fabric hearts. They would give one to the person in hospital and one to their family so that they felt connected. You could try doing something similar and send it to a family member so that they feel connected with you even though you can’t see one another.
Spelling and Phonics: Create a wordsearch including all of your words for the week for someone in your house to complete.	Shape: Complete the Shape tasks on Education City.		
Listening and Talking: Log in to Oxford Owl and find the Storytelling Video of Rapunzel. Do you think the King was right to hand over his daughter? What would you have said? Can you think of 3 questions you would ask the witch if you were Rapunzel in the tower?	Fractions: Develop your knowledge of comparing fractions with the link below: https://www.bbc.co.uk/bitesize/articles/zvypkmm How many tenths (1/10) is the same as one fifth (1/5)? How many quarters (1/4) can you fit into a half (1/2)?		
Reading: Choose a book on Epic, freechildrenstories or continue reading The Ickabog. Choose a character in your story to create a visualiser for. Draw and label the visualiser with descriptive quotes from your story.	Data Handling: Access Espresso through Discovery Education and click First Level, Maths, Statistics. Enjoy taking part in some of the Interactive Activities.		
Writing: Write a recount about your time in lockdown. Remember to include what you have enjoyed/not enjoyed, what you have been doing and learning, and things you are looking forward to about getting back to school in August.	Measure: Area: Complete the Area worksheet on Teams by finding the area of each shape in cm ² . As a challenge, use your knowledge of perimeter to find the perimeter of each shape too.		Technology: Design your own game or sport. Include rules, equipment, number of players, a kit for players to wear, and explain how you earn points and win the game.
