

Interview Family Member

Choose a family member from in your house or someone you are able to contact through phone/facetime that has been to or is attending the same high school you will be starting.

This can be an older sibling, a parent or guardian, a cousin etc. Create questions that you would like to ask them in an interview about your high school. You may wish to ask them some practical questions, some questions about their experience or for some particular advice. Have a mixture of different questions that allow for you to gain as much information and insight into your high school as you can. Make sure the questions are open ended and can then lead into other questions if necessary. Record the answers that the participant gives you during the interview.

****An example of the different questions have been given to start you off. But feel free not to use these and just go straight in with your own.****

1. When you attended the high school, what was the building like? How many floors did it have? What was the outside space like? How big was it?
2. Can you tell me about the things that you enjoyed about high school, especially in the first few years? Why did you enjoy these things?
3. What advice would you give me to stop me getting lost and being late for my classes?

L.I: To devise an interview to gain information.

Success Criteria:

- Generate questions that gather information about your high school.
- Include a variety of different types of questions- what, where, describe, explain.
- Create questions that get information, share experiences and gain advice.
- Ask the questions and record responses.

Find the answers to these questions

There are **probably many questions** that you **still have about your high school**, questions about the **building**, the **teachers**, the **timetables**. A lot of **practical things** that you have not been able to find out. The next task you have is to **try to answers these practical questions**. Your best source of information would be **people** you know **who have went or go to your high school**. **Work together** with your friends to get the answers, ask older siblings or relatives, contact your teachers on Teams and see if they know the answers.

L.I: To find and select information.

Success Criteria:

- Read and understand the questions asked.
- Find the information to these questions from different sources.
- Select the information from what you are told that answers the questions.
- Work together with others to answer the questions.

1. When does school start and finish Monday to Friday?

2. How long does each period last?

3. How many classes will there be in first year?

4. What is the difference between the tutor class and the practical class?

5. Where is the school library?

6. Where can I eat my lunch and spend my break and lunchtimes?

Time Capsule

A **Time Capsule** is a container that contains present day items, photographs, information, newspaper articles, letters etc. It is filled with fun, interesting and memorable things to be stored for the future. Years and years later it can be opened to see what it was like at that time or remember a certain period of time.

Create your own **Time Capsule** of this period in your life. Not only the transition between primary to secondary school but the time spent at home during this difficult time of Coronavirus. This can take different forms where you can make a box and store things, make a written **Time Capsule** or even a virtual one!

L.I: To create a time capsule.

Success Criteria:

- Discuss what a time capsule is and its purpose.
- Decide which time capsule would suit you best.
- Find and select items and information you will need or want to include.
- Include relevant and key things and information.

Box Time Capsule
