Summer Holiday 2019

Deputy First Minister's Maths Challenge

The Scottish Mathematical Council

Scottish Government Riaghaltas na h-Alba gov.scot

Puzzle 1 – Family Archery Challenge

On their Summer holiday, the Archer family go to an archery activity and compete against each other. Based on the target scoreboard above, can you work out the following puzzles:

All of the arrows land on the board and each round has 4 arrows.

Round 1 – Mum scores 54, Dad scores 55, Iona scores 70 and Harris scores 58. Suggest how each family member might have scored with their arrows to get their total.

Round 2 – Each member of the family scores the same total with their 4 arrows. Can you find a total where they managed this with different combinations of arrows? Scores on the target board can be used more than once.

There is a sign offering anyone that scores **over 60 with 3 arrows** another game free. How many possibilities can you come up with for this, and what are they?

Why not create a similar game by making a target board and throwing coins or counters, keeping your maths skills sharp by working out the scores.

Puzzle 2 – Summer Holiday Packing

Iona has packed 3 different t-shirts, 3 different pairs of shoes and 3 different pairs of leggings in her rucksack. How many different outfits can she make?

Can you explain how you worked it out?

Puzzle 3 – Puzzle Book

Iona and Harris cannot agree on the correct answer to the puzzle. Iona thinks it is 68 but Harris does not. What do you think is the correct answer? Can you explain this for Iona and Harris?

Could you and some family members attempt this individually and compare answers?

Are all the answers the same?

If not, discuss your thinking and listen to the explanation of others, who is right and why?

Puzzle 4 – Scotland Team Activity

Puzzle 4 – Scotland Team Activity

Age – 33 Caps – 191 Goals – 13	Joanne Love Midfielder Club: Glasgow City	Age - 28 Caps - 132 Goals - 53	Kim Little Midfielder Club: Arsenal L.F.C	Age - 28 Caps - 60 Goals - 4	Christie Murray Midfielder Club: Liverpool L.F.C.
Age - 23 Caps - 25 Goals - 2	Lizzie Arnot Midfielder Club: Manchester Utd	Age – 26 Caps – 18 Goals – 0	Nicola Docherty Midfielder Club: Glasgow City	Age – 25 Caps – 20 Goals – 3	Claire Emslie Forward Club: Manchester City
Age - 29 Caps - 126 Goals - 58	Jane Ross Forward Club: West Ham	Age – 26 Caps – 77 Goals – 17	Lisa Evans Forward Club: Arsenal L.F.C	Age – 24 Caps – 37 Goals – 2	Fiona Brown Forward Club: FC Rosengard
Age - 26 Caps - 24 Goals - 3	Lana Clelland Forward Club: Fiorentina	Age - 20 Caps - 29 Goals - 9	Erin Cuthbert Forward Club: Chelsea	And the second sec	A CHILL

Puzzle 4 – Scotland Team Activity

The family are talking about their favourite players from the Scottish Women's Football Team World Cup 2019 squad. They have turned this into a guessing game and are giving each other clues to help them find the player. Can you find the name of each family member's favourite player?

 Mum she plays for a Scottish team her caps and age are both even numbers her goals scored is 3² 	 Harris her goals scored total is a prime number she is a Forward the total of her age, caps and goals scored is a multiple of 10 			
Who could it be?	Who could it be?			
 Iona her age is ¹/₄ of 100 she has not yet scored any goals her number of caps can be divided equally by 1 and 2 	 Dad the total of all three statistics is even she is in her 20s she has one clean sheet 			
Who could it be?	Who could it be?			
Can you create a set of clues about				

Puzzle 5 – Shape Task

How many triangles can you see?

Iona and Harris are looking for another puzzle in their book. Iona loves shape puzzles.

Harris thinks the answer to the question is 26 but Iona thinks Harris is wrong. Who is right and why?

When looking for triangles, Harris spotted lots of other shapes. How many different shapes can you find? Look carefully, not all shapes are obvious at first glance!

The puzzle contains more shapes than triangles as you've probably noticed – what do you know about these shapes – for example, their names, how many lines they have, are they symmetrical? What else?

Issued to Primary 6 pupils in Scotland for Summer holiday maths family fun.

Developed in partnership between the **Scottish Government** and **The Scottish Mathematical Council.**

We will be publishing the solutions and workings on our Making Maths Count blog (blogs.gov.scot/making-maths-count) from 27 July 2019.

Parents and carers

Please check out Parentzone Scotland www.education.gov.scot/parentzone

and

Parent Club **www.parentclub.scot** for more ways to enjoy numeracy and maths.

What you can do as a parent or carer

- Play board games! Games can involve a lot of maths: this could be counting squares, looking for sequences, moving in different directions, exploring probability by rolling dice or being dealt a card, and following logic and rules.
- Play puzzles and puzzle-like games. Examples include Noughts and Crosses, Guess Who?, Sudoku, Dominoes, Battleships, Dots-and-Boxes and Chess. These involve strategic thinking, problem solving, and planning, as well as lots of the skills mentioned above.
- Include children in activities that use maths. For instance cooking often asks for lots of quantities and measuring as well as shapes, times and temperatures. Shopping involves prices, counting money, and checking the time.
- Estimate all sorts of things together: "I wonder how many steps there are here?"
- Plan journeys together, look at maps, timetables, and talk about distances.
- Talk about maths in a positive way, that way your child will too!
