The Boss

Mr Mitchell then...

...and now

Each year I write a few words about our Yearbook. My words this year have even greater significance for me than normal. This is the last contribution I will make. Next year, a new headteacher will be able to comment on the good job the team are doing.

I know that a tremendous amount of effort has gone into this year's production and everything seems to have gone reasonably smoothly. I congratulate the Yearbook team and all who have assisted.

Good luck for all future Yearbooks. I especially look forward to those for 2009 to 2017 when my grandchildren will feature.

Q. What will you miss most about Kilsyth Academy?

A. The children, the day-to-day contact and the general hustle and bustle of the school.

Q. What won't you miss?

A. Standing outside at a school disco having abuse hurled at me by yobs.

Q. What has been the most memorable moment?

A. Beating HMI when they gave us feedback after our school inspection.

Q. Have there been any disasters?

A. One girl broke her femur at a sports day and once four girls were rushed to hospital after overdosing.

Q. What made you decide to go into teaching?

A. No particular reason, it just seemed like a natural progression. Q. What do you feel you have contributed to the school in your twenty years as headmaster?

A. I hope I have made this a friendly establishment and a happy place to work that has achieved a lot.

Q. How has the school changed since you came here as an assistant head in 1979?

A. The building's older, the staff are older and everyone is working harder than ever. Also, the first computer arrived in 1983. There are now over 400.

Q. How do you think the school will be in years to come?

A. Much improved. The building will be physically better, but I hope it will still be a happy place to work.

Q. How will you spend your time now?

A. Looking after the grandchildren and the dogs, gardening. I'm also on the boards of the SQA and LTS. And of course, taking holidays during term time.

The S.S.

Graham Stirling,
School Captain

Firstly, congratulations to everybody involved in this year's production of the yearbook. Despite a number of setbacks, the team has created an exceptional book. Everyone in the group put in a huge amount of time and effort which is clearly evident in the following pages. An extra special well done to the editor, Natasha, for remaining sane throughout the whole experience. It provides us all with memories of our fellow pupils and the teachers who made the last six years so eventful. On a personal note, the Outward Bound and Burns Supper were highlights of the year for me.

Thanks to all the prefects for their hard work and to all the teachers for giving us the skills to face the world after KA. Cheers!!! **Graham**

KILSYTH ACADEMY STUDENTS COUNCIL CONSTITUTION

AIM:

To allow pupils to be consulted about the running of the school and to allow them to put forward suggestions:

STRUCTURE:

The council will operate as a two (2) tier system, with Year Group Councils each sending two (2) representatives to the Students Council.

Year Group Councils

Each form class will, at the start of each session, nominate two (2) representatives to the Year Group Council. The first year Council will not come into operation until October. Each form class should attempt to nominate one (1) male and (1) female representative, if this cannot be done two (2) members of the same sex will be accepted. Fifth and sixth years will form a single council. Two (2) prefects will be responsible for the running of each Year Group Council, one (1) of whom shall chair the meetings. The other prefect will take the minutes.

Students Council

Each Year Group Council will nominate two (2) representatives to the Students Council. The School Captains will in addition be members of the Council and will chair the meetings.

Members of staff will be nominated by the Headteacher to liaise with the Councils and may attend meetings. Each Year Group Council will have a liaison member of staff.

REPRESENTATIVES/OPERATION:

The election of class representatives will be organised by the link prefects/seniors in co-operation with the form teachers. The nomination of representatives to the Students Council will be made at the first meeting of the Year Group Council.

Meetings

Each Council will meet at least once per term. Agendas will be intimated in advance and recommendations and suggestions endorsed by the Council will be submitted to the link member of senior management and published on class noticeboard and the central School Council noticeboard.

The minutes will be discussed at senior management meetings and feedback given at the next year group council meeting.

All students will be given information about year group councils at assemblies.

Business

The agenda will be produced after consultation between the Headteacher (or his representative) and the prefects/captains responsible for each Year Group. It will contain both items suggested by the staff and the pupils. Most aspects of the running of the school may be discussed, but ***UNDER NO CIRCUMSTANCES SHOULD THERE BE ANY DISCUSSION OF MEMBERS OF STAFF, PUPILS OR OTHER INDIVIDUALS WITHIN THE SCHOOL.***

Hands off! Both of you!!

The school's annual Burns Supper was filled with the traditional long-winded but very well rehearsed speeches from Mr Denovan, the cheesy jokes from Mr Dougan, the delicious food and the one pitiful glass of wine that would only get Michelle or Starky steamin. Unless of course you are the school captain who hogged half a bottle (you're supposed to be setting an example, Graham). However, this year the Burns Supper went where no burns supper has gone before - there was dancing. Very bad dancing at that. We were also all highly insulted and entertained by Rowan and Allan in their toasts to the lads and the lassies, Mr Denovan, in particular, by Alans dodgy, balding wig. As usual the night was a great success and enjoyed by all.

SKI TRIP

ITALY

The annual ski trip to Val di Fieinme got off to a very slow start. The horrendous weather meant we arrived three hours late at Dover and were met by ferry delays! However, once we got onto the slopes this was all forgotten as the weather was fantastic, with sunny skies and excellent snow conditions. Everyones skiing improved due to the quality of the instruction. Once again Stefano, Daniele and Ricardo set the girl's hearts a fluttering. The only bad point of the week was Craig's injury from which he has made a full recovery. All too soon we were saying goodbye to Paulo and Marisa and looking forward to Italy 2006!

ROUND AND ROUND

To make up for the cancelled trip to Alton Towers last year, in September the seniors went on a trip to Blackpool Pleasure Beach. The trip was enjoyed by everyone who went along and will be remembered in many different ways. Whether it is Laura's stand up comedy act on the bus, Michelle's outrageous flirting behaviour, Ben being too scared to go on the merry-go-round or being a member of the Pepsi Max hat-trick heroes.

YOUNG PHILOSOPHERS

"Be nice to the youth of today as in the future they will be the ones writing about you." And these young philosophers are no exception! The youngsters of the school have taken part in various events within the English department throughout the year, including the launch of their very own novels and the Kids Lit Quiz. Both events were enjoyed by everyone who participated, mainly due to the free food.

SAY WHAT?

"Burns published a poem '9 inches to please a lassie. Us 6th year guys shouldn't have too much of a problem then.' **Your not half 'big headed' are you Allan.**

"Mount Miss Coffey"
She's talking about a volcano!

"Karma Sutra. That's in The Mummy isn't it?"
All I can say Connell, is poor Stephen.

"He thinks he's a pure model. He is. He's a quazzy model"
Rowan strikes the men again

"Is there actually any ice in Iceland?"
Who knows Natasha, who knows!

"Men generally resemble shoes. They are usually unpolished with their tongues hanging out."
You're spot on there Rowan!

"I swear to God I'm gonna go sick"
Yearbook stresses out the editor.

"If you take your shoes off you won't leave footprints in the snow"
Charlene's obviously never seen snow before...

"Guys are like computers. In order to get their attention you have to turn them on. They have a lot of data but yet remain clueless. They're supposed to help you solve problems but half the time they are the problem! As soon as you commit to one, you realise that if you'd waited a little longer you could have had a better model."
Rowan once again describes men so well.

*"Does the underground train go underground?"***Yes, Michelle is this dumb.**

"Miss, could you point out Tsunami on the map for me please?"
No, as much as she'd love to be, she's not naturally blonde

"The bell has not gone yet."
Miss Stewart's voice echoes down the corridor as the sixth years make a run for the cafe.

"Food doesn't taste as good as slim feels"
I beg to differ.

"Where the hells Fiona?!?"
Says the rest of the yearbook team.

"Do you get ants in Scotland?"
Is the pope catholic Amanda (Harper)?

"My birthday landed on Friday the 13th once."
When is your birthday Charlene?
"June the 11th"
Something isn't quite adding up here...

INDIA 2004

In June 2004 five pupils and one teacher left Scotland for an experience of a lifetime. Fiona Riddell, Ashleigh Brown, Kirsty McLean, Daniel Keogh, Ross Workman and teacher Mr Tolmie set off for a month in India. The team from Kilsyth Academy joined up with a team from Balfron High to trek, travel and work on some community projects in India. For the month everybody had to work together as a team to get from city to city, to find accommodation, to stay alive and make sure everyone had fun. The team saw and done so many things. They walked in beating sunshine and driving snow. They learned how to speak Hindi and Tibetan; they visited the Taj Mahal; ate more dahl than anyone should have to; met a man named christmas tree and made a difference to a community very different from their own. Overall an amazing and life changing experience had by all.

The scenery was amazing.

A day in the life of S1

1st years are locked outside until the bell goes.....

Who can explain Pythagoras' Theorem?

1st years spend their break playing games....

....or getting bullied by the link prefects

Working hard in class

By the time the first years get into the cafe not only has the food been munched by the seniors, lunchtime is nearly over.

The myths are true.
Upcoming 1st years
BEWARE!!!!!!!!

1st think so highly of their 6th year link prefects.

Running to get the back seats on the bus - some things never change!!!

A day in the life of S6

.....so we can enjoy our
breakfast in peace

What's 2x2 Bob?

Some people take prefecting too
far!

6th years eat the cafe clean before the
first years get near it. The first year are
left with only the healthy food. YIKES!!!

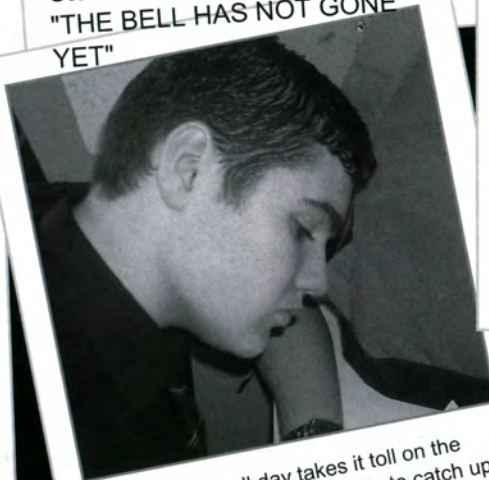

Lynne wonders how long it is until
lunch while Mr MacRae tells her
off for uniform violation.

6th years run to the cafe as Miss
Stewart chases them screaming
"THE BELL HAS NOT GONE
YET"

The 6th year girls use their time at
the carells well - looking good is
way more important than English!

Doing nothing all day takes it toll on the
guys who take any opportunity to catch up
on sleep at the carrels - even the school
captain!

Running to get the back seats of
the bus - some things never
change!!!

6th Year Key

The Brains Behind

Fall outs, tears, and tantrums - that was only half of what Editor Natasha Todd had to put up with. She made sure she kept the yearbook team in order and did her fair bit of moaning and bossing about. But hey, if it wasn't for her, you wouldn't be reading this now!

Editorial Team Nothing would have happened if it wasn't for these gals. They pulled the yearbook together and made it happen! With a special thanks to Kirsten and Laura.

the Book!!!

The Good...

The Bad...

The Ugly!

From the Editor ...

A special thanks to Kara Dickson who helped with every team. The Business and Finance team played a big part in the success of the book too - especially Amanda Harper, Ross McGee and Andrew Martin.

Another year gone by and with it another yearbook completed. FINALLY!!! I don't know how much more stress I could have taken...what with all the fall out between teams, pictures not being taken, layouts going missing and computers crashing. Even the chippy wasn't helping me towards the end! The yearbook has been a challenge, or a nightmare is probably a better term, but we got through it eventually and created one of the best yearbooks KA has ever seen. Well, I think so anyway. Thank you so much to everyone who helped make this book possible. Give yourselves a wee pat on the back. A very special thanks to Claire, Amanda, Caroline, Kara and Scott - thecore of the yearbook team. Good luck to next year's team - beacause you are definitely going to need it!

CHEERS!!

Firstly, a huge thanks to everybody who helped, even in the slightest way, to make this yearbook work. Together we have made the best yearbook KA has seen this year!

A very special thanks to:

Miss Reilly for all her help with pages, advice and proof reading.

Mr MacRae for proof reading the pages, taking pictures and supplying us with fudges and Nutri-Grain Bars (well, the school is promoting healthy eating).

The Technical Department for allowing us to take over and make a mess in their room. And especially to Mr Knight for all his help with the difficult graphics that the editorial team came up with to make life so difficult for the DTP team. (This was just one of the fallout reasons between the teams!)

Mr McKay for the all blank disks we stole from him. Sorry sir, but it was for a good cause!

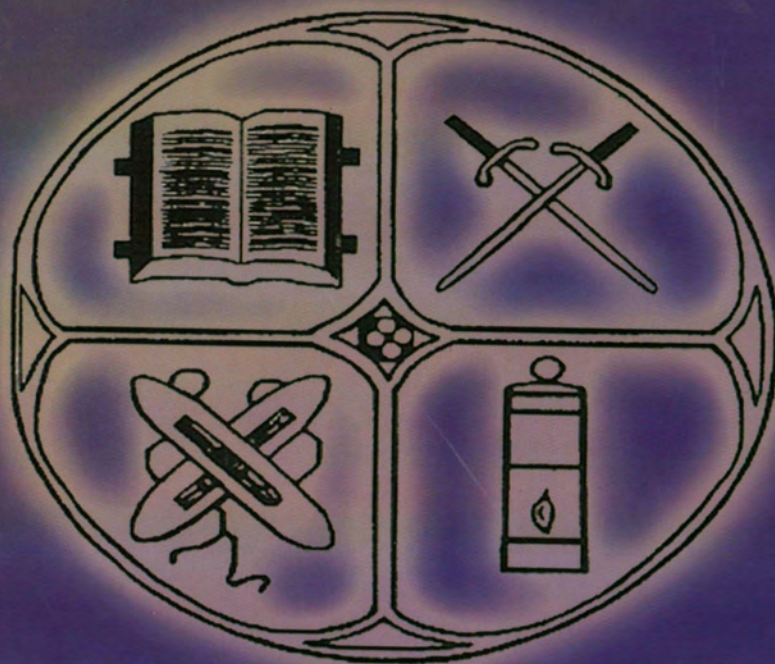

All the teachers for putting up with us when we nicked their classes for photos.

All the posers who allowed us to take their picture.

Manoel Amado and his company for publishing the book, for the instructions on how to work the program and for being so patient through all the technical difficulties.

Phew, we're nearly done. Last, but certainly not least, to everybody who bought this yearbook. I hope you've enjoyed flicking through, having a laugh at most of it and perhaps even cringing at your own pics!
