# WELCOME

Jack Chalmers

Well, it's that time already: another year finished, and what an amazing year it has been. From trips to the other side of the world, to crazy -everything day; I think it's safe to say there's been something for everyone. As joint-editor of the yearbook, I hope that this one showcases all the highlights of the year—as well as the bits you didn't want your parents to see!

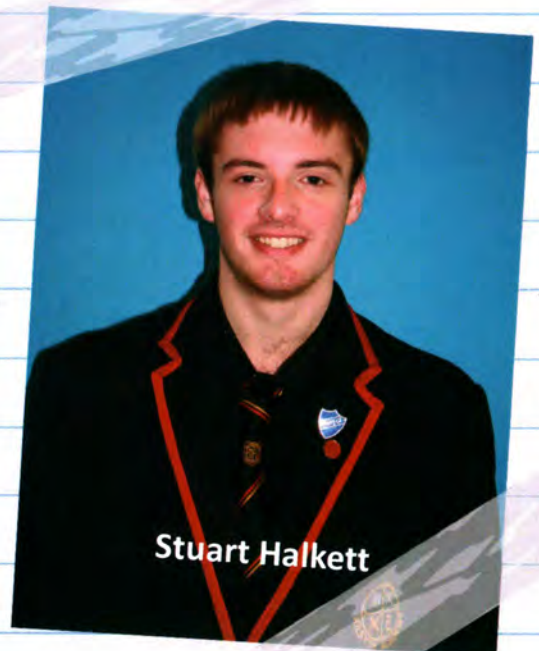

So, thanks for buying our Yearbook—now just sit back, relax and enjoy the reminiscing!!

The challenge every yearbook team has is to make the Yearbook memorable and unique. One of these unique ideas was to include QR codes on some pages that can be scanned by smartphones or iPods.

One of my incredibly unique and memorable ideas was a front cover with two large emus... and a flying penguin... on a jetpack... with a machine gun... well two guns. For some reason that wasn't picked and we went with the Monopoly cover.

Still think we need an emu though.

Right, I'm off to Graphics.

# RUGBY

It has been a successful year for rugby at the academy this year.

It all kicked off with a great turn out for the junior inter-house rugby tournament which was won by Lennox.

Later in the year a group of pupils attended the Scotland vs England game at Murrayfield.

The S1/2 team made it to the semi finals of the Lanarkshire schools cup.

# Rwanda Trip

During the summer of 2011, fifteen pupils and two members of staff embarked on the journey of a lifetime...to the African country of Rwanda. The group met many different people with many different stories - stories which told of the horrific crimes committed during the 1994 genocide. They also experienced the inspirational love and warmth of the people which has united both the victims and genocidaires. It was an emotional fourteen nights, but the trip wasn't short of the usual banter guaranteed at any Kilsyth Academy trip! So we hope that we can share our memories with you through these photos. Enjoy!!

# SCIENCE CLUB

Mr Dudman (Physics) is dedicated to the science club of Kilsyth Academy. It has been running for the last five years with the help of Mrs F. McManus.

The science club was originally only set up for first years, but the pupils enjoyed it so much they didn't want to leave. Now pupils from first year to fifth attend the club and mentor all the new first years that join. This is a great achievement for all involved.

Murray Gallagher met Charlie Duke, the tenth man to walk on the Moon and the pilot of the lunar module for Apollo 16

# CAMMY-O'S

Cameron Douglas has a habit of walking onto movie sets. This is his story...

"The events depicted on this page are fictitious. Any similarity to any person living or dead or in our class, is merely coincidental."

# *In Loving Memory*

## **KIRSTEN STEWART**

Kirsten was born on the 26th of November 1994, and was tragically taken away from us on the 10th of September 2006 in a heartbreaking road accident. She was a beautiful, bubbly and bright light in all of our lives, and is sorely missed by all who knew and loved her. She deserves a place in this yearbook along with all of her classmates who will never forget her. We cherish the memories we shared with her.

1994-2006

*"There were blooming flowers,  
There was a rising sun,  
There was a shining star,  
And then there was you,  
Our beautiful angel"*

## **TAMARA MAXWELL**

Tamara was born on the 8th of August 1994 and passed away unexpectedly on 7th of April 2009, at only 14. She was a beloved daughter, loving sister, loving grand-daughter and a much loved friend. She is sadly missed.

Gone but never forgotten,  
1994-2009.

*"Don't think of her as gone away-  
Her journey has just begun,  
Life holds many facets  
The Earth is only one"*
