Dear Parent/Carer,

Introducing Discovery Friday

We are excited to be introducing Discovery Friday, a great opportunity for us to learn in a different way and develop our curiosity, creativity and confidence.

Discovery Friday will give us the chance to become investigators, problem-solvers, creators and communicators. We will be presented with interesting questions, challenges or real-life problems and will work together to find solutions.

Discovery Friday is all about asking:
"I wonder…?"
"What if…?"
"How could we…?"

We will be encouraged to:
• Ask questions and develop lines of enquiry
• Investigate by researching, observing, experimenting and testing ideas
• Work as a team, listening to and building on one another's ideas
• Communicate thinking clearly with others
• Solve problems and persevere when things don't go to plan
• Think creatively and consider different possible solutions
• Reflect on what we have discovered and what they would like to find out next

For example, we might investigate how to build a bridge strong enough to hold a particular weight, explore how we could make our school more environmentally friendly, solve a mystery using clues and evidence, design an invention to solve an everyday problem, or investigate an aspect of the natural world.

We can't wait to see the questions that are asked, the ideas developed, the problems solved and — perhaps most importantly — the things everyone discovers that we didn't expect!

We hope that you will enjoy hearing about your child's discoveries at home and you can encourage them also by asking questions, being curious and wondering "What if…?"

Our Discovery Friday motto: **Discover it - Investigate it - Create it - Share it!**

disability confident LEADER
INVESTORS IN PEOPLE | Accredited Until 2021
LIVE LEARN WORK INVEST VISIT

It will begin on Friday 6th November. We are very much looking forward to seeing where curiosity takes us all!

Many Thanks

Mrs Reid & the Leadership Team Sophie, Leo & Jackson
