

P5 Newsletter Term 3

April to June 2023

Mrs Montgomery

P5 have all settled well back into their classroom routines after the Easter holidays. We have welcomed Miss Maitland back into class to work with us.

We love to share our learning with each other and with you. You can follow our learning journey on Twitter @Noble_P_S.

Literacy and English

What will we be learning?

Reading: We will be reading non-fiction texts, which relate to our topic. We are also reading information online and researching websites to learn extra facts. Each reading group is continuing to read their fiction books and novels, we are all practising summarising texts in our own words.

Writing: We will be writing narratives and concentrating on portal and change stories. We will also be writing recounts and reports. We are working hard to plan our writing and check our work, making sure that we follow core targets.

Talking and Listening: We will be making presentations to our class about our topic.

Numeracy and Maths

What will we be learning?

Mental Agility: We will be continuing to practise different strategies that we have learned this year, reinforcing our learning and sharing our strategy with others.

Mental Maths: We will be using our whiteboards for quick-fire maths questions to improve our recall of maths facts.

Maths: We will be learning about numerous concepts such as information handling, measure and angles and symmetry.

Health and Wellbeing

What will we be learning?

PE Focus: Our PE days are Tuesday and Friday. We will be learning badminton skills, athletics and summer games.

Building Resilience: We will be learning to "Expect The Unexpected" and that change is a necessary part of life. We will consider that change can be positive and negative and that we can all react differently to it.

Right of the Month: We will be continuing to learn about the Outright Campaign and the Unicef articles, which relate directly to health. We will be learning about what happens when health systems fail and what can be done to make the world's health systems better for children's health.

SHANARRI Focus: We will be learning the importance of being 'included'.

IDL and Topic Work

Social Studies: We will be learning about the Aztecs.

Sciences: We will be learning about 'Our Amazing Air' with Glasgow Science Centre, and we are getting to visit the Science Centre too.

Other Curricular Areas

RME: We will learn about Rosh Hashanah and Yom Kippur.

French: We will be learning about the calendar, seasons and the weather.

Spanish: We will be learning about Spanish food and likes and dislikes.

27 th June	Wider Achievement

Arrangements for Home Learning

A weekly post is issued on Teams on a Monday, which lists the Home Learning tasks for the week. The files section on the team page contains a Home Learning folder under Class Materials, this contains a new folder for each week and will contain spelling word lists and other tasks to be completed. Any work can be submitted via the weekly assignment, which is issued on Teams.
