

## **PowerPoint 1: Research**

Create a front cover for your bridge research PowerPoint. Create a slide for each of the categories below. Include a heading with the name of the bridge and the category it fits in to, a picture and a fact about the bridge.

- Longest bridge
- Smallest bridge
- Oldest bridge
- Widest bridge
- Most unusual bridge
- Most interesting bridge
- Most expensive bridge
- Nicest bridge

## **PowerPoint 2: Bridge Presentation**

You have to produce a PowerPoint presentation of one specific bridge. It should be an interesting and unusual bridge.

Your presentation should be no less than three pages and no more than five pages long (+ front cover).

- Name of bridge.
- Where is it? Map, what town/city/river/country is it in?
- What type of bridge is it?
- Who designed/ made it? Architect/ company.
- What interesting facts can you find out about the bridge?
- Images
