Comparing Capacities

We have been learning to describe and compare capacity.

What you will need:

- Water
- Empty containers (like bottles, beakers or cups)
- Scissors

Ask a grown-up to fill the sink or a washing-up bowl up with water. Find some clean empty containers and fill them up to match these descriptions.

Cut out the labels and match them to your containers.

- ✂

|		
nearly full	half-full	empty
half-empty	full	nearly empty
