Second Level: Ideas of Uncertainty and Chance

Make up signs that say the following and put them in four corners of a room:

Likely	Unlikely
Impossible	Certain

Now that you have the signs in place, read the statements below. Think about the possibility of each one. Once you have decided whether it is likely, unlikely, impossible or certain stand in the corner of the room that has that sign. Discuss your answer with someone.

It will rain tomorrow in Scotland.

You will see a UFO tonight.

You will get 'tails' when you flip a coin.

It will snow in London in December.

If you roll a dice you will get a number bigger than 3.

A baby will be born today.

Disney will release a new film next year.

Scotland will win the World Cup.

It will get dark tonight.

You will win the lottery.

Get your family to play along!
