- Write a set of instructions about the item you have chosen. List materials/equipment that will be needed and if needed rules. Include clear detailed steps in chronological order, using instructional verbs that tell the reader what to do. Then draw labelled pictures/diagrams to explain the instructions further.
- After you have finished your writing, read over what you have read making any changes you may need to. Then using the success criteria, assess what you have written. 2 things you have done well and 1 thing that you think you can improve on next time- just same way as you would in school.
