

End of Year Achievements

This Year We Have...

...worked hard.

...been successful.

...learned from
our mistakes.

...achieved!

...worked
together.

Our Achievements

Remember, achievement is a very individual thing. What might seem like a small step for us can look like a massive achievement to others.

It is important that we celebrate everyone's achievements, no matter how big or small.

We Have Achieved

Take a moment to share one of your achievements from this year with the person next to you.

Well Done Everyone

Whether your achievements this year have been big or small, whether you have won medals or filled yourself with pride, we have all learned new things and felt a sense of achievement.

Congratulations!

Parting Thought...

It's nice to have your achievements noticed and celebrated. If you notice someone achieving something, no matter how big or small, congratulate them.

It's always nice
to be nice.
