

Interdisciplinary Learning

<p>Make a fact chart about a Scottish Pioneer or invention.</p>	<p>Prepare a flow chart to show the development of a Scottish invention over time (eg. How has the telephone changed since it was invented?)</p>	<p>Create a new product which solves a problem in modern life. Give it a name and plan a marketing campaign.</p>
<p>You should: -include at least 15 facts</p>	<p>-include at least 6 steps which are sequenced correctly</p>	<p>-identify the problem you want to solve</p>
<p>-each fact should have an illustration or photograph</p>	<p>-include a picture, date and description of the change for each step</p>	<p>-explain how your product solves the problem</p>
<p>ensure it is neat and well organised</p>	<p>ensure your flow chart is clear and easy to follow</p>	<p>-create an example of the new product to show in class</p>
<p>-use your own words</p>		<p>-design a radio, TV or poster advert to promote your product (consider impact, information and pricing)</p>
