

L.I To use prior knowledge

- I can apply my knowledge of dinosaurs to my own creation
- I can label my design with topic vocabulary e.g. predator, claws

Design your own imaginary dinosaur. Draw and label the features of your dinosaur. Think about what you know of dinosaurs to help you design it effectively. Think about:

- What does it eat?
- Where does it live?
- Does it live alone or with others?
- Is it small or large?
- Does it have features to protect it?
- Does it have features to attack others?
