

RAVENSWOOD PRIMARY PARENT/CARER QUESTIONNAIRE

Ravenswood Primary is committed to working closely with our parents and carers to make sure that we are taking account of your views. We want our vision, values and aims to reflect the things that matter to you, your children and the partner agencies we work with. We are keen to find out how you and your child found the transition from nursery to primary. Any suggestions on ways in which we could improve would be greatly appreciated.

Before your child started school?

	Strongly Agree	Agree	Disagree	Strongly Disagree	Don't Know
It was easy to find out how to enrol my child.	21	2			
School staff were helpful at enrolment.	22	1			
I accepted the offer of the guided school tour. If yes, I found this useful as I get to know the school.	20	2			
My child was visited at their nursery by a member of school staff.	20		1		2
My child was visited at their nursery by their buddy.	20		1		2
These visits helped my child feel positive about starting school.	22	1			
I was contacted with details of the induction day and given enough notice to make arrangements to attend.	21	2			
The presentation given by school staff at the induction day was helpful.	22	1			

What could we have done better?

Nothing. Fabulous buddy system, very effective and definitely played a key part in ensuring my daughter was raring to go for her first day (also a great help for parents)

Everything leading up to the first day was excellent

The transition between nursery and school went very smoothly, having visits and time with her buddy made my daughter very excited to start school.

Nothing, Miss Hawthorn does an excellent job

I had concerns because my son was at Kildrum nursery that he wouldn't settle in. The teachers and my son's buddy made him look forward to every visit. I am so pleased, nothing could have been done better.

I don't think anything could have been done better, everyone at Ravenswood went above and beyond with additional transition visits and meetings before school began. Thank you!

Nothing!
