Before we went we were sorted into groups. We had a chance to help make them.

Teamwork was key throughout the week. Communication was the main learning.

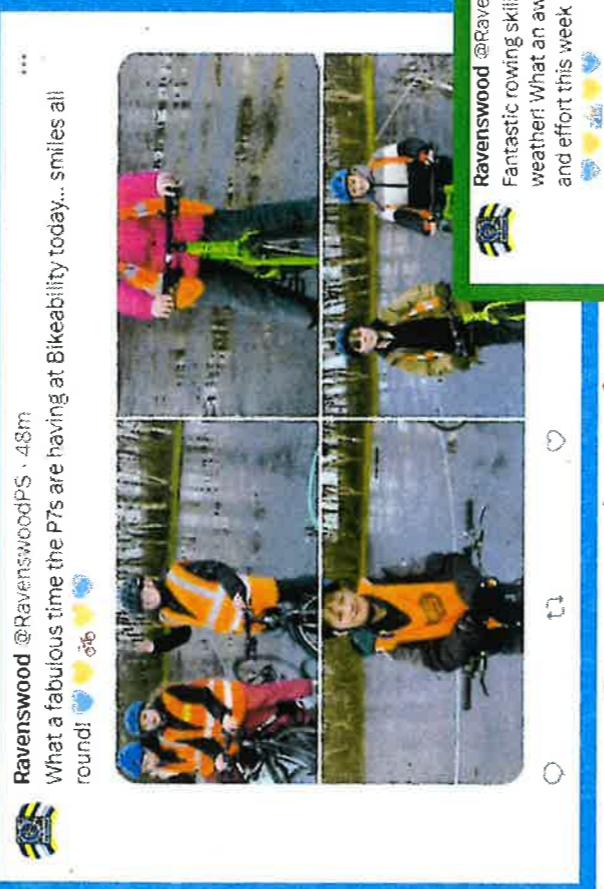

Enthusiasm and positivity too.

Our advice for next year P7, bring lots of warm clothing!

Exciting times for these confident P7 cyclists who are heading off on their first road cycle using their new safe signalling skills. 🚲

In January most of P7 stayed with us all week. Some tasks had our activities based on the weather. It has wild the whole time we were there! Bushcraft was a BIG favourite.

Communication At times some of our team would give up. That was hard.

Most of the instructors stayed with us all week. Some tasks had our activities based specialist instructors. It was a BIG favourite.

Road safety skills were taught through PERSEVERE: DON'T GIVE UP!!

Look at this boy go! We are so proud of all of our P7s who have learned to cycle this week in just 2 days! Thank you to all of the staff at @SPSprogramme who have helped build our confidence in safe cycling. 🚲 #SPSActivity

We were grouped according to ability for this.

CHALLENGE YOURSELF!!

We started planning our enterprise on fair.

All of the prototypes were shared in the class. Our class voted for their favourite.

We had 2 clear winners.

Cosy Christmas Home Co.

Even though we had two products, we worked as one company. We then split into teams so we could be at company. Market bij and finance etc.

All of the photos were shared in the class. Our class voted for their favourite. We had 2 clear winners.

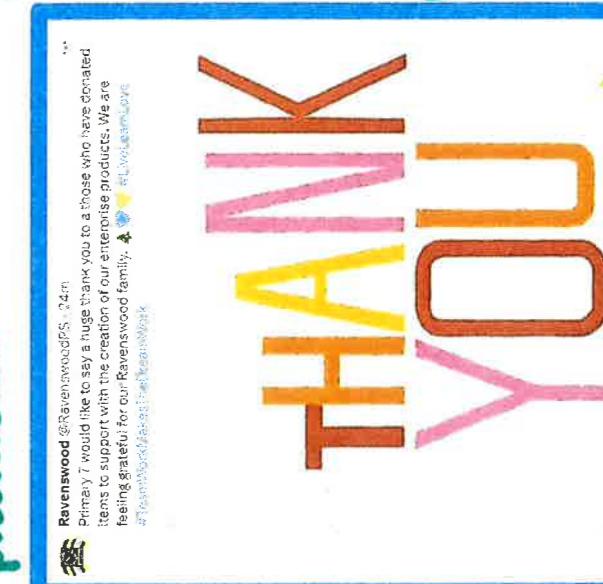

You had the choice to work in the teams but it was limited. We conducted some market research to find out who would buy our product.

EVERYTHING we make is
made by hand.

People do a deal so they are more inclined to buy the products.

We made
the fence.
We had
good idea.

We hosted MoH to present our pitch. This included getting a loan.

In hindsight, we could make a kindly decision.

We went to the cinema
with our friends.
