

HELP

# Ravenswood Rangers

TEAMWORK

We have a tree swing. We put a stick near it, this means you can't go in front of the stick or you might get hurt. I love the tree swing. We have to make sure we hold on tight and stand back.

If we are doing tree climbing we need a spotter. This person tells us where the branches are. I like climbing the trees. There has to be a teacher under the tree just in case. You should only climb on really thick branches.

RESPECTFUL

When I build a fire you are not allowed as a team and make sure no one is near when I lift. There is a green rope around the fire and past it because you would be too close to the fire.

We get to do lots of activities at the Marsh but you can't go past the red ribbon so we don't get lost. These are called boundaries.

I made a den out of different materials like the tarp. Miss L helped us. We used logs to make sure it stood up.

SHARE

We were wood whittling, you use a potato peeler and you pull the peeler away from you. This keeps you safe.

We use smores we need to kneel with one knee down, this is to

make sure we don't catch on fire. Charlie from P4/5 taught us. We have to put a marshmallow on a stick and hold it near the fire. They were good!

NEST

If the smores burn you have to wait

only 5 people can go around the fire at one time.

We made a seesaw, needs to weigh it down so you don't get hurt.
