

Wednesday 8th Oct. 9

All don - can count fingers 😊

5 Maths

I have to touch things to help me count.

We sing lots of songs at maths.

I was learning about the number 6.

I made a 6 with pipes. 6 looks like a snake!

4

We know about the number 7. We had to draw 7. We listened to Snow White and the 7 Dwarves. We had to count the diamonds. 0 1 2

We can put numbers in order. Mrs Mac. was so silly she got them mixed up. We had to put them in order. You start with 1. You actually start with 0.

We write our numbers using

sugar in Mrs Simpson's Class.

I was drawing numbers on hands. I did a 1, 2, 3, 4, 5! I counted the fingers too.

Canor can tell us about 6 numicon. Numicon numbers are different colours. You count the holes.
