

DUTY OF CANDOUR REPORT FOR
RICHARD STEWART FAMILY LEARNING CENTRE
APRIL 2023

The Duty of Candour Procedures (Scotland) Regulations 2018 underpin our commitment to openness and transparency which is vital to the provision of safe, effective and person-centred health and social care.

Honesty, trust and effective communication can be difficult to maintain and easy to lose when things go wrong.

The Duty of Candour sets out a range of procedures that need to happen when any unexpected or unintended harm occurs.

There have been no incidents requiring Duty of Candour procedures during academic year 2022/23.

Our previous actions were to have 100% of Richard Stewart FLC staff undertake the online module about the Duty of Candour as recommended by the Care Inspectorate and this has been completed. Any new staff joining us during 2023/2024 will be expected to complete the training.
