Focus for Learning
April—June 2017 Primary 6

Numeracy and Maths

Our focus for this term is on Data Analysis, Angles, Weight and Volume, Chance and uncertainty

The children will be learning to :

- recognise when presentation of data may be misleading

- Use correct language for data analysis e.g axis, Venn diagram, Carroll diagram, category, criteria

- Measure and draw angles up to 270 degrees with accuracy

- Solve 'real life' measure problems by converting units and using other maths concepts in conjunction

- Make predictions and conduct simple experiments relating to chance

This will be assessed by a written assessment at the end of the unit and the children will evaluate their progress daily through peer and teacher dialogue.
