

Focus for Learning
April—June 2017 Primary 6

Topic

Our topic this term is a comparative study between Scotland and the U.S.A.

We will be studying the historical roots of the USA and its connections to the UK, past and present. We will be looking at social and economic similarities and differences as well as comparing climates and landscapes.

We plan to learn some Native American Indian dances and do some artwork on this too.

We will also be using ICT for research and particularly trying to evaluate the reliability of sources.

We will be linking to our maths by doing some mapping tasks.
