

God's Loving Plan

The main aims of God's Loving Plan are:

- To develop learners' knowledge and understanding of the Catholic Christian faith, particularly relating to the moral life.
- To develop skills in moral decision-making, vocational discernment and critical thinking, leading to a maturing ability to apply moral principles to their own lives and to major issues in the moral sphere
- To exemplify and foster those beliefs, values and practices relevant to the moral sphere

This programme does not rely on purely religious content, but draws in other aspects of learning for life, personal decision-making and health. We seek to enable the children to:

- Make informed decisions in order to improve their mental, emotional, social and physical wellbeing
- Experience challenge and enjoyment
- Experience positive aspects of healthy living and activity for themselves
- Apply their mental, emotional, social and physical skills to pursue a healthy lifestyle
- Make a successful move to the next stage of education
- Establish a pattern of health and wellbeing which will be sustained into adult life, and which will help to promote the health and wellbeing of the next generation of Scottish children. (Curriculum for Excellence)

Catholic schools aim to help all students to develop their fullest potential, preparing them for life, informing their minds and forming their characters so that they can contribute with others, and above all with God, to the transformation of the world. (This is our Faith)

We have included a leaflet and an information letter for each year group which outlines the four themes, which are an integral part of the programme for all stages, and a list of the key vocabulary which will be taught to your child during these lessons.
