

Focus for Learning

August - October 2019

Primary 6

Numeracy and Maths

- Numeracy activities will develop skills with place value, addition and subtraction and money.
- Money activities will focus on relevant real -life contexts using money examining how to look after finances and budget effectively.
- Mental agility skills will focus on improving speed and recall of Times Tables facts, adding and subtracting HTU numbers and using Number Talks resource to develop the range of mental agility strategies.
- Problem solving skills will be developed through daily activities which will highlight the range of strategies which can be used.
