

Let's practise

1) Copy and complete each number sequence.

- a)       
- b)       
- c)       
- d)       
- e)       

CHALLENGE!

Use an empty number line for each question.

Start at **800** each time and skip count backwards.

Say and write the numbers you land on.

- a) How many jumps of 20 to reach 700?
- b) How many jumps of 25 to reach 700?
- c) How many jumps of 50 to reach 700?
- d) If you keep skip counting backwards from 700 in jumps of 20, 25 and 50, what is the next number that you will write on each of your number lines?
