

Numbers in the World Around Us

Learning Intention

We are learning to **recognise** the numbers 0-10 in the world around us.

Success Criteria

- I can **identify** numbers around me.
- I can **identify** numbers in the environment.

Our World

Can you recognise numbers around you?
Have a look around you and see where
you find numbers.

Go on a walk and see if you can identify
any numbers.

When you are out and about at the
shops or at a club, can you spot any
numbers?

Self Assessment

Have a look at the success criteria again:

- I can **identify** numbers around me.
- I can **identify** numbers in the environment.

How did you do?

Share your learning

We love to see you all taking part in our lessons. Remember to share your learning with us on Twitter.
