

Place Value Bingo

LI: I am learning to recognise the place value of 2-digit numbers.

This game can be played with 2 or more people (3 or more players is ideal!)

To play:

The learner can start by getting their bingo card. Please print a card from below or make your own by writing out 2-digit numbers on paper or a whiteboard!

An adult can call out the numbers.

Level 1: Start by calling out 2-digit numbers to support the learner with their number recognition.

Level 2: Recognise the place value of digits. The adult can call out statements for example: 'This number has a 4 in the ones column', 'This number has a 2 in the tens column'.

Play until a learner has a line then a full house!

11	23	13	17
26	30	24	31
12	19	32	27
16	20	34	15

10	35	53	17
27	13	22	21
16	29	47	44
42	50	34	11

50	85	72	67
91	63	92	60
76	89	57	84
72	54	61	81
