

# Digital Addition Launch Pad

# Learning Intention

We are **choosing** an area of addition we would like to **practise** and get better at.

# Success Criteria

To have **improved accuracy** and **speed** when **solving** different types of addition sums.

# Introduction

We use addition every day. Addition is adding one amount on to another. Click on the link below to watch a short video all about it.

Click on the picture to access BBC Bitesize.

# Task

Click on the different pictures to access some interactive addition games-

# Self Assessment

Time to reflect-

**What** area of addition did you focus on?

**How** will this help you in the future?

# Share your learning

We love to see you all taking part in our lessons. Remember to share your learning with us on Twitter.
