

Paris

Paris is the capital city of France. It is known as the city of love or the city of lights. Millions of tourists every year visit Paris and are rarely disappointed.

Paris is good for sightseeing because it is full of wonderful things to see.

The most famous tourist attractions are the Eiffel Tower, the Louvre Museum, Arc De Triomphe and the Grand Palais. The Eiffel Tower was only meant to stay there for 20 years when it was first built. The famous Mona Lisa can be seen in the Louvre.

Disneyland is also located a short distance from Paris and is a great choice for kids.

Lots of famous artwork such as the Mona Lisa by Leonardo Da Vinci, Vincent Van Gogh's self portrait and Poppy Field by Claude Monet can be found in Paris.

One thing that makes Paris so special is the food. Macarons, croissants, onion soup, oysters, snails, quiche, profiteroles, ratatouille, cheese fondue, bouillabaisse and frog's legs are all traditional french food.

The population in Paris is around 2.148 million and the currency is euros and cents.

I hope my tourist guide was helpful and that you enjoy your trip to paris.
