

Find the Equivalent Fractions

LO: I can write the equivalent fraction.

Fill in the numerator to make the fractions equivalent.

1. $\frac{1}{5} = \frac{\square}{10}$

2. $\frac{4}{5} = \frac{\square}{10}$

3. $\frac{3}{10} = \frac{\square}{20}$

4. $\frac{7}{10} = \frac{\square}{20}$

5. $\frac{3}{5} = \frac{\square}{20}$

6. $\frac{9}{10} = \frac{\square}{40}$

7. $\frac{2}{5} = \frac{\square}{20}$

8. $\frac{1}{10} = \frac{\square}{20}$

9. $\frac{7}{20} = \frac{\square}{40}$

10. $\frac{3}{20} = \frac{\square}{40}$

11. $\frac{19}{20} = \frac{\square}{40}$

12. $\frac{11}{20} = \frac{\square}{40}$

Find the Equivalent Fractions

LO: I can write the equivalent fraction.

Fill in the numerator to make the fractions equivalent.

1. $\frac{1}{5} = \frac{\square}{10}$

2. $\frac{4}{5} = \frac{\square}{10}$
