

St Lucy's loves being an Eco School! We are so proud of all the work we achieve together to make our world a better place.

We have worked so hard to make our playgrounds and community a cleaner and brighter place by picking up litter. Our infant children used their findings to help create bar charts in Maths.

We love to explore our school garden and learn outdoors

St Lucy's Abnrohill

Mrs Beaton had two fantastic helpers in the garden this afternoon! [#outdoorlearning](#) [#responsiblecitizens](#)

Mrs Beaton created the most fantastic 'Fairy Garden' at Abronhill Glen. It is loved and appreciated by members of our community.

Primary 1 loved learning all about ladybirds and watching the caterpillars grow into butterflies during our online learning.

We still celebrated CHEco week during lockdown. We loved having family time!

We spread well wishes to our local communities during lockdown 🌈☁️

Did you see Woody the snake? He was created by the community of Abbronnill, our families were encouraged to add to his body by decorating a stone. In the end we had over 200 stones 😊

We love celebrating success. Well done to our 'Gardener of the year'! We are so proud of you 😊

We promote having a positive mind-set at St Lucy's and we work hard to remember the importance of our health and wellbeing; especially our mental health.

When focusing on the topic of transport we loved promoting the 'cycle to school' week. We all had so much fun and used our bike and scooter bays so much more ☺

We created Eco posters to put round our school reminding everyone to recycle their food and materials.

Our senior pupil's continue to link their learning in Health and Wellbeing to their STEM work.
